

## SIMPLE TO SUBLIME SNOWFLAKES

Item #119852  
Snowflake Punch

HERE'S HOW: Punch a snowflake with the **Stampin' Up! Snowflake Punch**. To change the shape, make only one cut then repeat it six times, turning the snowflake as you go. Flip the snowflake over and repeat exact cut six more times. If you want to trim more off, repeat.

*This is sort of silly isn't it... to have a flyer on how to make altered snowflakes... because there's so many more important things in life... but oh well... it's the little things that are sometimes the most fun... and snowflakes, after all, are very little.*
